For Immediate Release

Fast Forward Video Names 27-Year Industry Veteran Harry Glass as Vice President of Sales

IRVINE, Calif. — Feb. 18, 2009 — Fast Forward Video (FFV) today announced that it has named Harry Glass as the company's new vice president of sales. Glass brings 27 years of industry experience to his new role, in which he will be responsible for establishing and maintaining relationships with independent manufacturers' representatives, distributors, dealers, resellers, and OEMs. This new appointment supports Fast Forward Video's commitment to building a world class network to support the high demands of the broadcast industry and continue the company's rapid growth.

Glass comes to FFV from OmniVue, an independent manufacturers' representative for broadcast, professional video, and multimedia equipment. In his 27 years with the company, he has built a strong and knowledgeable representative firm that supports many manufacturers' product lines giving resellers and end-users a wide range of solutions. These solutions have been a key source to OmniVue's success.

"Harry's experience will enable us to identify, attract, and motivate the highest caliber of sales channel partners," said Hal J. Reisinger, president and CEO of Fast Forward Video. "Harry's appointment as vice president of sales is further testimony to our commitment to build an exceptional management team."

"I am proud to be joining the Fast Forward Video team after working with them as a manufacturers' rep for many years," said Glass. "It is an exciting time to be joining the company, which is on a fast growth track in an industry in the midst of a digital transition toward HD

products. I look forward to working closely with their group of knowledgeable and active manufacturers' rep organizations and resellers as we continue to expand our presence in the market."

Glass holds a bachelor's degree in electrical engineering and a master's degree in business administration, and is a member of the Society of Motion Picture Engineers and InfoComm. He will be based in the company's New York facility and report to Hal J. Reisiger.
